BIENNIAL FLIGHT REVIEW

CFR 61.56 requires a flight review to be accomplished every 24 calendar months. If the pilot has received a rating or a new pilot certificate within the last 24 months, or has accomplished a new phase of the Wings program, then the requirements of 61.56 have been met.

CFR 61.56 requires one hour of ground instruction and one hour of flight instruction. CFR Part 91 is required to be reviewed during the flight review. The flight portion of the review should cover "…those maneuvers and procedures, that, at the discretion of the person giving the review, are necessary for the pilot to demonstrate the safe exercise of the privileges of the pilot certificate."

Part 91 Review:

- Privileges & Limitations ..... _____
